Professional Summary

Full Stack Developer with professional experience developing and maintaining web applications across front-end, back-end, APIs, databases, and integrations. Experienced with PHP, JavaScript, TypeScript, Python, React, Next.js, FastAPI, HTML, CSS, PostgreSQL, MySQL, and SQLite. I build solutions for e-commerce, event platforms, administrative systems, and interactive applications. Postgraduate specialization in Cybersecurity, with knowledge of penetration testing and secure development practices.

Education

Postgraduate Specialization in Cybersecurity - Faculdade Metropolitana | Completed in 2026

Systems Analysis and Development - UNISUAM | In progress (since Jul 2025)

Technical Skills

Languages: PHP, Python, JavaScript, TypeScript, SQL.

Front-end: React, Next.js, React Native, HTML5, CSS3, Tailwind CSS, Bootstrap, Vite.

Back-end: FastAPI, Node.js/Express, REST APIs, PHP.

Databases & Data: PostgreSQL, MySQL, MariaDB, SQLite, SQLAlchemy, Alembic, Drizzle ORM.

Security & Authentication: JWT, bcrypt, access control, auditing, logging, penetration testing, Kali Linux.

Tools: Git, GitHub, GitHub Actions, Render, Vercel, VS Code.

Selected Projects

GateCheck - Ticketing and Check-in Platform

Next.js, React, TypeScript, Python (FastAPI), PostgreSQL, SQLAlchemy, Alembic

Full Stack platform for ticket sales and event access control, including event and ticket-batch creation, purchase flow, unique QR code generation, entrance validation, and audit logs. Service-oriented backend, JWT authentication, and a Next.js/React front-end.

FLASH - Tattoo Supplies Marketplace

TypeScript, Next.js 16, React Native (Expo), Express, PostgreSQL

Full Stack marketplace for tattoo and body piercing supplies, using a monorepo architecture for web, mobile app, API, and shared package. Delivery integration with Uber Direct, PostgreSQL database, and continuous deployment on Render.

Rare7 - Full E-commerce Platform

PHP, MySQL, JavaScript, HTML5, CSS3

E-commerce platform with online storefront, admin dashboard, CMS, Mercado Pago checkout integration, email automation, dashboards, and audit logs.

WSL SporTV Games - Interactive Games

Python (FastAPI), React 18, TypeScript, SQLAlchemy

Full Stack MVP for interactive event experiences, featuring the Drop Sua Onda and Jurado por Um Dia games, touch-screen TV interface, individual mobile results, configurable registration, and an admin dashboard.

Customer and Product Management - Mobile App

React Native, Expo, TypeScript, SQLite, Drizzle ORM, Redux Toolkit

Mobile application with customer and product CRUD operations, record relationships, local SQLite database, validated forms, state management, and navigation with Expo Router.

Factory Production Management

Python (FastAPI), React, MySQL, SQLAlchemy

Full Stack industrial production management system with inventory control, product and raw-material modeling, and logic for production feasibility analysis and prioritization.

Professional Experience

TIIX | Full Stack Developer | 2026 - Present

Development and maintenance of web applications using PHP, HTML, and CSS, working across front-end and back-end features. Implementation of improvements, maintenance of existing code, bug analysis and fixes, and continuous system evolution. Work on projects subject to confidentiality requirements, safeguarding sensitive technical information and business rules.

D&Z | Full Stack Developer | Nov 2025 - 2026

Development and enhancement of e-commerce platforms and web systems, including admin dashboards, product, order, and customer management, authentication and access control, API integrations, custom endpoints, MySQL databases, and responsive interfaces. Use of Git/GitHub for version control and support with environment configuration.

D&Z | Administrative Assistant | Jan 2024 - Nov 2025

Administrative and operational support, management of the official website, and development of an internal JavaScript, HTML, and CSS solution for company initiatives. Internally transitioned to the development team in November 2025.

Previous Experience

Xuxu Beleza | 2023 - 2024

Order picking, organization, and packing, with support for day-to-day operational routines.

Fisa Imobiliária | Administrative Assistant | 2020 - 2021

Customer service, payment slip issuance, and support with administrative control of rental operations.

Languages

English - Intermediate: reading and interpreting technical documentation, translation, and communication in professional contexts.

Certifications

Introduction to Penetration Testing - Desec Security

Fundamentals of penetration testing, reconnaissance, enumeration, and the use of offensive security tools.

Additional Projects

FURIA Bot | Python, Telegram API, BeautifulSoup

Bot for fan interaction, match and player lookups, and automated information retrieval through web scraping.

Tiixokê | React, Vite, Express, Web Audio API

Web karaoke application with video playback and microphone audio analysis for score generation.

AIpply | JavaScript, Python

AI-assisted job application automation for reading job postings, matching candidate profiles, and generating application materials.
